

We make it easy to get started.

A challenge for many businesses is a lack of understanding on how to interpret and take action on the people data and analytics that support business goals.

A good start is to get a modern handle on your job structures.

Job Architecture Consulting services by Turetsky Consulting provides:

- ✓ Assessment of your current job table structures
- ✓ Job documentation including descriptions, coding and titles
- ✓ Reviewing your use of job data
- ✓ Validation of the completeness of your data
- ✓ Development of process to review your structures regularly.

Through our partnership with **Salary.com** you can leverage their job description management solution, JobArchitect to simplify the process of creating and maintaining job descriptions so you can market price jobs accurately and hire with confidence.

Partner with the right resources so you reach your People Analytics goals faster.

Listen to the **HR Data Labs** podcast on your favorite streaming platform!
